

# Eight Scattered Thoughts

*Experiments in Failure*

For Tuba, Baritone Saxophone, Marimba, Piano and Electronics Processing

*Composed for No Collective*

Brian Lindgren

**@bklindgren (IG)**

## Notes on the Score

### *Zoom/Remote Performance:*

**Overall concept:** Instrumentalists audio and video record their parts individually. The Electronic Artist then uses the recordings to create their own audio track that's made up of the recordings put through various audio processing effects/algorithms of their choice. Their part should have a real-time component that can be 'performed' and video recorded. The audio is mixed together and the video is compiled to resemble a Zoom performance.

1. Instrumentalists audio + video record their part to the prepared click track
  - a. Audio recording requirements:
    - i. Good microphone/preamp
    - ii. Good microphone placement
    - iii. Record at 44.1kHz & 24 bit depth WAV
  - b. Video recording requirements:
    - i. Good camera or rear camera on an iPhone or other smartphone.
    - ii. Good video placement (capture face, hands)
    - iii. Only one angle required.
    - iv. Record at 1080p
    - v. Record 3-4 meters away from the performer
  - c. Slate:
    - i. Once the audio and video are recording, the performer should clap their hands together while in the video frame so that the video and audio can be synced up in post-production. After the slate has been made, they can start the click track and record their part(s).
  - d. Send audio & video via a shared link (Wetransfer, Dropbox, Google Drive, etc) to: [brian@brianlindgren.com](mailto:brian@brianlindgren.com)
  - e. Click track & audio resources:  
[https://drive.google.com/drive/folders/136l1BfNhMxve0W9TUJtbQ\\_FDTQZEuRBt?usp=sharing](https://drive.google.com/drive/folders/136l1BfNhMxve0W9TUJtbQ_FDTQZEuRBt?usp=sharing)
2. Electronics Artist (EA):
  - a. After the instrumentalists have submitted their recordings the EA will receive four stems per movement, one stem for each instrumental recording.
  - b. The stems will be lined up and can be dropped into any DAW
  - c. The score includes graphic notation for each movement and/or written instructions.

- d. The electronics part should be executed in a way that can be performed in real-time and recorded.
- e. Please record audio and video observing the specifications listed in Sections 1.a., 1.b., and 1.c. The processing track should be done in stereo.
- f. A granular processing patch coded in Pure Data is include as an \*optional\* processing too. However, the EA is welcome to use any tool(s) of their choosing.
- g. Submit audio and video as outlined in Section 1.d.

*Live Performance:*

1. Overall Setup:
  - a. Each of the four instruments is mic'd.
  - b. Microphones should be fed into both:
    - i. The a mixer tha house sound system
    - ii. The audio I/O for the Electronics Artist (EA)
  - c. The audio output from the EA is fed into the mixer for the house sound system
  - d. The dry signal from the instruments does not have to be used -- it is only necessary to achieve:
    - i. A good sound level for the audience (for example, more amplification would be needed for a large venue)
    - ii. A good balance with the electronics processing
2. Electronic Processing:
  - a. The score includes graphic notation and/or written instructions for each movement.
  - b. While a Pure Data processing patch is included for \*optional\* use, the Electronics Artist is welcome to use any real-time processing software or hardware that they choose to employ.

Proc.

Detailed description: This system covers measures 14 through 17. The baritone saxophone part features a melodic line starting with a 'Closed slap tonge' effect, marked with a crescendo and reaching a forte (f) dynamic before softening to piano (p) and ending with a 'Normal' dynamic. The trombone and woodwind parts are mostly silent, indicated by double bar lines. The piano accompaniment consists of chords and moving lines in both hands, with dynamics ranging from fortissimo (ff) to mezzo-forte (mf). The percussion part is highly active, featuring a complex, multi-layered rhythmic pattern with various textures and sounds.

Bongos

Piano

Processing

The musical score is written for four instruments: Baritone Saxophone, Tuba, Bongos, and Piano. The key signature is two sharps (F# and C#), and the time signature is 4/4. The tempo is marked as ♩ = 130. The score is divided into three measures. The Baritone Saxophone, Tuba, and Piano parts are currently empty, indicated by horizontal lines with a dash. The Bongos part features a rhythmic pattern of eighth notes and rests, starting with a forte (f) dynamic. The Piano part includes a text box providing performance instructions: 'All the long held notes swell from nothing, up to the midpoint, and back to nothing. Swells can be created by a gentle arpeggiation.'

Pno.

Proc.

The score is for a piece titled "Eight Scattered Thoughts". It features five parts: Baritone Saxophone (Bar. Sax.), Trombone (Tba.), Bone (Bon.), Piano (Pno.), and Percussion (Proc.). The music is in 3/4 time and the key signature has two sharps (F# and C#). The score begins at measure 34. The Bar. Sax. part has a melodic line with some grace notes. The Tba. part is mostly silent, with a few notes in the final measure. The Bon. part plays a rhythmic pattern of eighth notes. The Pno. part has a sustained chord in the first two measures and then a melodic line in the third measure. The Proc. part has a sustained sound marked "(Ten)" in the first two measures and a melodic line in the third measure marked "mf".
